

Philadelphia Testimonials

The greatest value of the platform has been the ability to network with a varied peer group to bounce ideas and assemble different viewpoints through a variety of lenses across industries and very simply meeting fun and interesting people along the way. At the LINC event, the most valuable part of networking was beginning the dialogue with other Titans in Philly. It was invaluable to be able to compare notes with leaders in other industries and taking a look outside the four walls of your own business.

It has been a true honor to be recognized as a Titan 100 leader along with my fellow honorees. The greatest value has been the expanded c-suite network and the relationships built amongst the Titans at the networking opportunities.

The energy and diversity of thought are unique to the Titan community. I've found an enormous amount of value from the CEO workshops and sharing sessions where fellow leaders explore solutions, tactics, and trends that can help grow your business and operate more efficiently.

Isabelle Kent | CEO, Philly Startup Leaders

The importance of the award is mainly that it shines a bright light on Philadelphia Water and the important work that our 2,000 dedicated employees do every day. It is their professionalism and dedication that makes the difference. Also, having a chance to meet, interact and truly connect with the other Philadelphian Titans is truly outstanding. I have learned something special from all of the Titans I have had a chance to meet with, and I look forward to meeting many more.
